

FARHAN WAHYUDI

Jambi, Indonesia | +6281247506528 | hello@frhnwahyudi.xyz | <https://github.com/frhnwahyudii> | www.frhnwahyudi.xyz

PROFILE

Dedicated Information Systems graduate from Dinamika Bangsa University with a strong expertise in Full Stack Web Development using Laravel and PHP. Hands-on experience building end-to-end web applications, designing scalable RESTful APIs, and refactoring code for maintainability. Proven ability to deliver projects using GitHub Copilot and Google Gemini to accelerate development. Eager to grow as a Full-Stack Developer and contribute to building high-quality web applications. Willing to relocate anywhere.

EDUCATION

DINAMIKA BANGSA UNIVERSITY Aug, 2022 – Jun, 2026 (Expected)
Bachelor of Information Systems

- GPA: 3.73/4.00
- Relevant Coursework: Web Development with Laravel Framework, Database Systems, System Analysis & Design, OOP

WORKING EXPERIENCES

Freelance Jan, 2024 – Present
Full-stack Developer & System Analyst

- Designed and developed full-stack web applications using Laravel, PHP, and MySQL, including frontend, RESTful APIs, and business logic for clients academic research and thesis project.
- Accelerated development by 30–40% by integrating GitHub Copilot and Google Gemini for prompt engineering, code generation, debugging, and architectural improvements.
- Designed relational database schemas and optimized queries to ensure high data integrity and performance.
- Created UML diagrams, flowcharts, and technical documentation to support client requirements and system maintainability.

VINIX7 Aug, 2025 – Dec 2025
Frontend Developer Intern

- Built responsive frontend interfaces by converting Figma designs into clean HTML, CSS, and JavaScript.
- Collaborated with a team of 3-4 members to deliver frontend applications on schedule.
- Contributed to the SkillBridge Global project as intern capstone project, which later became my full-stack undergraduate thesis.

PROJECT EXPERIENCES

SkillBridge Global – Job E-Marketplace & Escrow Platform Sep, 2025 – Present

- Led the full-stack development of a comprehensive Job E-Marketplace & Escrow Platform using Laravel and MySQL as my undergraduate thesis project.
- Refactored backend architecture from Fat Controllers to Service-Repository Pattern to improve code quality and maintainability (with GitHub Copilot assistance).
- Currently preparing the application for production using Docker, Laravel Cloud, Vue.js, and Inertia.js for better SPA performance.

GIS: Beauty Clinic Mapping in Jambi City Apr, 2025 – Aug, 2025

- Built a web-based Geographic Information System using Laravel + Leaflet.js to solve public difficulty in finding authorized beauty clinics as my academic research project.
- Implemented secure User-Generated Content system with admin approval workflow.

Personal Portfolio Webpage Nov, 2024

- Designed and deployed a fully responsive landing page using HTML, CSS, and JavaScript.
- Redesigned and modernized my personal landing page using Next.JS, TypeScript, Shadcn UI

SKILLS

Technical Skills:

- **Backend:** Laravel, PHP, RESTful APIs, Service-Repository Pattern, OOP
- **Frontend:** HTML5, CSS3, JavaScript, Leaflet.js

- **Database:** MySQL, Relational Database Design, SQL Query Optimization
 - **AI Tools:** GitHub Copilot, Google Gemini, Prompt Engineering
 - **Others:** Git, UML Diagrams, Flowcharts, Technical Documentation
 - **Currently Learning:** Docker, Tailwind CSS, Vue.js, Inertia.js, Cloud concept
- Soft Skills:** Problem Solving, Continuous Learning, Team Collaboration
- Languages:** Indonesian (native), English (conversational)
